In 1974, the United States Congress enacted the Juvenile Justice and Delinquency Prevention Act (the Act)<sup>1</sup>. In 2002, Congress reauthorized the Act. The purpose of the Act is to provide a coordinated and comprehensive approach to the problems of juvenile delinquency. Section 223 of the Act addresses the requirements which states must meet in order to receive formula grants from the federal government. Pursuant to Rhode Island General Laws §42-26-4 the specifics of the Act and the administration of juvenile justice funding is carried out by the Rhode Island Justice Commission (RIJC) and specifically by the Juvenile Justice Specialist.

The Act requires that states adhere to certain "core requirements" when apprehending and detaining juveniles and that a record is maintained of the nature detentions and characteristics of juveniles detained. All law enforcement agencies in Rhode Island are required to maintain this information through a self-reporting system on a Juvenile Detention Data Summary Form<sup>2</sup>. These reports are forwarded to the RIJC on a monthly basis, and the Juvenile Justice Specialist uses the information to submit a yearly *summary report* to the federal Office of Juvenile Justice and Delinquency Prevention.

In order to further utilize the data submitted to the RIJC a relational database was created. With this analysis tool, it is possible to examine the dynamics of juvenile offenses in much greater detail. We can examine offenses statewide, within cities and towns or among cities and towns by age, gender, racial/ethnic background, time of day, day of week or month. Our aim in this project is to provide practitioners and policy makers with statistical information that will allow their decision-making processes to be more informed.

Data can also be accessed at <http://www.rijjustice.state.ri.us/sac/statistics.htm>.

## CATEGORIES OF OFFENSES

Juvenile detentions of youth decreased in total by **3%** in 2004 over 2003. The largest category of offenses, **various disorderly behaviors**, represented 28% of all detentions in 2004 and rose 3% over the 2003 figure. Larceny offenses represented the second largest figure at 19% of all detentions and had a 5% decrease in 2004. Assault offenses represent the third highest category of offenses with 15% of all detentions. Although this was a 7% increase from 2003.

Marked decreases are noteworthy in the sex offense category. Better reporting has also lead to large decreases in the unknown and non-offense categories.

## METHOD OF RELEASE

Method of Release refers to the manner in which a youth was ultimately released from the facility in which they were detained for the particular offense. In some instances an agency reports that a charge was referred to a Juvenile Hearing Board. However the small number reflected in these numbers does not match the larger number of cases known to be handled through Juvenile Hearing Boards.

According to records provided for 2004, 70% of detainees are released to a parent.
